SUKHANANDARYA REGION
NEW OPPORTUNITIES AND PROSPECTS
10 REASONS TO INVEST IN SURKHANDARYA REGION

- Closest exit to large markets of Afghanistan and countries of South Asia
- Convenient location for storing and export of fresh and processed agricultural products
- Favorable climate conditions for development of agricultural sector
- A chance to acquire facilities in public ownership at "zero" value
- Concessional lending to investment projects
- Increased competitiveness due to affordable cost of labor force
- Significant reserves of mineral and natural resources
- Unique opportunities for establishment of agro - tourist clusters
- Convenient package of preferences and benefits for participants in FEZ and SIZ
- Developed engineering and transport infrastructure

WELCOME TO SURKHANDARYA REGION!

In the framework of the State program for implementation of the Strategy of actions on five priority areas of the development of Uzbekistan in 2017-2021, during the year of “Active investments and social development”, the country is implementing practical measures aimed at improving investment attractiveness of the regions of the country, development of new jobs, as well as improvement of livelihoods of the population.

Surkhandarya is the southernmost region of the country with unique geographical location, significant economic potential, qualified labor force and rich natural resources.

Attraction of foreign investments is the priority for the region. Hence, the local authorities today are paying a great deal of attention to the practical issues of providing legal safeguards to foreign companies, who are carrying out investment activities in the territory of the region.

This guide has been developed with a view to informing business community, particularly foreign businesses, about the potential of Surkhandarya region, its rich natural and climatic conditions and resources, transport and logistical advantages that allow companies successfully implement projects in the region.

We believe that information contained in this guide will demonstrate to foreign and local companies the opportunities that are present in the region and assist in finding promising areas of business activities.

Chairman of the Chamber of Commerce and Industry of Uzbekistan
Adham Ikramov

Head of Administration of Surkhandarya Region of Uzbekistan
Tura Bobolov
INTRODUCTION

Surkhandarya region is one of 14 regions of Uzbekistan, is sixth largest by territory with the total area of 20 100 km² in the south of the country.

Population of the region is over 2.5 million, out of which 64% lives in rural areas.

Capital of the region is Termez city with population of 142 thousand. Other large cities - Denov, Boysun, Shurchi, Jarkurgon, Kumkorgon, Sherobod, Kizirik and Muzrabat.

There are 14 administrative districts in the region.

GDP exceeded $1.3 billion and makes up 4% of Uzbekistan’s total GDP

The region is one of the most agriculturally developed regions and provides over 9% of total agricultural production of the country.

During past 10 years, region’s GDP growth rate was at 8% annually

There are 10 457 small enterprises, 105 large enterprises and 10 805 farms currently in the region.

There are more than 302 enterprises with foreign capital in the region.

WHAT COMPRIS ES
INDUSTRY OF THE REGION

Region provides majority of coke production and petrochemical products.

During past 10 years industry went through steady growth with sharp increase in the number of enterprises.

Large deposits of non-ferrous metals (lead, zinc, gold), rare metals, such as strontium, coal, oil, natural gas, potassium salts and sodium chloride, various construction materials (including cement raw materials, pink granite, rotten rock, gypsum, keramzit and others) have been discovered in the region.

Two of three largest coal deposits of the country are located in Surkhandarya region. These are coal strip mines Shargun and Baysun, located in Jurassic chambers, from which high quality coal is extracted.

Region has well developed textile industry (cotton ginning and consumption, textiles), food industry (food products and beverages), construction materials industry and flour-milling industry.

Jointly with Russian partners, gas-chemical complex is being constructed at the ‘25th Anniversary of Independence’ mine in Baysun district with estimated more than $5 billion cost.

Jointly with Chinese partners, $105 billion production facility modernization is being implemented at Shargun Kumir coal deposit in Sariosiyo district.

Coal Strip mine is being modernized in Baysun. This project will allow production of 450 thousand tons of coal per year. Construction have been also launched under projects with production capacity of 5 million tons of cement per year.

Jointly with Chinese partners, LLC «Huashen Silkworm Pro» is being created in Angor district. This company will specialize in farming silkworm. Company will create more than 3.7 thousand jobs.

Estimated $120 million cement plant with projected production capacity of more than 1 million tons of cement a year was commissioned in Sherabad district. More than 1100 jobs were provided by the plant.

Modern disinfection-washing station has been commissioned for washing and sanitary treatment of wagons after cargo offloading with 246 wagons per day throughput.
Agriculture

The most important agricultural sectors - grain growing, horticulture, transhumance (grazing) sheep breeding, cotton growing, vegetable growing, sericulture and grape growing. The cultivation of figs, persimmons and citrus fruits is of particular importance for the region.

The region stands out among other regions of the country by its favorable climate conditions and fertile soil for growing crops. In the region, horticulture and vegetables and cucurbits grow faster than in other regions, which creates benefits.

Most of the finely-fibred cotton is grown in southern districts of the region - Termez, Sherabad, Jarkurgan districts. Beef farming and sericulture are developed in parallel with cotton production.

In order to expand irrigated agriculture, South Surkhandarya and Uchkizil water reservoirs were constructed recently. Irrigation activities were carried out in the southern part of Surkhandarya valley and in Sherabad plane, which significantly expanded the Sherabad oasis. Mountain pastures provide for grazing Gissar sheep, whose weight reaches 150-160 kg, Angora breed goats are also farmed for production of meat, voluminous fur hair and wool.

The region is also the only area of the country, where sugarcane is cultivated. Large number of orchards, vineyards, pastures in household land plots provides evidence of the value of agriculture as one of the important practices and livelihoods of local residents of the region.

Surkhandarya region has favorable soil and climate conditions for development of winegrowing allowing high yields of this culture. Currently, this sector has a great potential for further growth, which could be brought about by the currently established new vineyards, implemented new irrigation technologies, agritechnical measures and growing new high-yielding grape varieties.

Surkhandarya region is the only area of the country, where sugarcane is cultivated. Large number of orchards, vineyards, pastures in household land plots provides evidence of the value of agriculture as one of the important practices and livelihoods of local residents of the region.

Surkhandarya region has favorable soil and climate conditions for development of wine growing allowing high yields of this culture. Currently, this sector has a great potential for further growth, which could be brought about by the currently established new vineyards, implemented new irrigation technologies, agritechnical measures and growing new high-yielding grape varieties.
TOURISM POTENTIAL

Majestic mountain summits, picturesque nature, breathtaking waterfalls, clear and healing springs of Surkhandarya are capable of captivating anyone. That is why development of mountain and environmental tourism is playing increasingly important role in the development of the region.

Currently in the region there are efforts being taken aimed at development of tourist zones, where new hotels and cultural-recreational and health infrastructure are planned for development.

Surkhandarya region has unique historical and cultural past. From the ancient times the region was a cradle of secular and religious sciences, center of culture and artisanship, architecture and trade.

On a high bank of Amudarya, to the south-west of the old city of Termez there is tomb of the sheik of one of the Sufi Orders. This landmark is the mausoleum of the “Tarmez sage” - Hokim at-Termezi, whose full name is Abu Abdulloh ibn Hasan ibn Bashir.

He was the great theoretician of Islamic Sufism, prominent scholar and the founder of the Order of Dervishes. Being an unorthodox thinker, at-Termezi rethought the interpretations of verses of the Holy Koran and Hadith, providing a fresh look at the essence of the belief in Allah and the Prophet.

Surkhandarya region is rich in archeological landmarks. The legendary “Alexandria of Oksian” - lost city of the Alexander the Great, which was searched by archeologists for many years, was discovered at the site of ancient town of Kampirtepa in Surkhandarya region.

In Termez district of Surkhandarya region lies the fortress “Kirk Kiz” built in IX-X centuries AD, which was the residence of the Samanid Emir and where he liked to spend his summer days away from the hustle and bustle of big city.
Transport infrastructure of the region is fairly developed. Network of automobile roads and railways is linked with main transport routes of the country, this fact simplifies import and export of goods in all required directions.

Length of railways crossing the territory of the region is 372.5 km. There are more than 10 railway stations in the region.

There is the main passageway running between Termez and Tashkent.

There are 2,844 kilometers of automobile roads in the region, including international and national highways. The region has its airport.

Region has rail-vehicular bridge across Amudarya river, its length is 816 meters, and it connects Uzbekistan and Afghanistan.

Main imports are from Kazakhstan, China, Lithuania, Russia and Turkey.

Main exports are to Afghanistan, Kazakhstan, China, Republic of Korea and Russia.

Total external trade turnover of the region is more than $374 million.

**IMPORT STRUCTURE**

LOGISTIC HUB

TERMEZ CARGO CENTER

Termez Cargo Center is large logistical terminal, located in Termez district of the region. It was commissioned in 2016. It is the only terminal of this nature built at the close proximity to the border with Afghanistan.

This terminal provides transport and logistical services, including customs checks, loading and offloading, goods storage at warehouses of the terminal, as well as processing of transit cargo for intermodal transportation (rail - truck) to and from Afghanistan.

It is unique by its size and capacity. Total area of the terminal is 40.7 ha. terminal has 4 indoor warehouses with total area of 6 thousand m² each, one of which is equipped with 14 refrigerated chambers, with total area of 141.6 m² each.

In addition, there is dedicated container yard for storing more than 3 thousand 20-foot containers and more than 2 thousand 40-foot containers. Throughput capacity of the container yard allows for processing 69 20-foot containers per day.

RIVER PORT

The region has the only international river port of Central Asian region, situated on the bank of Amudarya river, on the international Uzbekistan - Afghanistan border. There is the bridge crossing the river with rail tracks. Goods exported from Poland, Czech Republic, Russia, Germany, Bulgaria and other countries various Asian countries transported through the bridge and the port.

The port has a well developed network of access rail tracks. Goods to Afghan port of Hayraton are transported through the port. On average, each month port delivers about 25 000 tons of shipments. There means of river transport for shipment of cargo from port Termez to port Hayraton and back: diesel boats (tug boats), dry-cargo and tank barges with capacity of up to 2 500 tons.
Траспортная инфраструктура

В 2011 году была введена в эксплуатацию железнодорожная линия Hayraton - Mazari-Sharif, которая связала Узбекистан и Афганистан и стала первой международной железнодорожной линией в истории Афганистана.

В декабре 2017 года правительства Узбекистана и Афганистана достигли соглашения о строительстве железнодорожной линии Mazari-Sharif - Shibergan - Maymana - Herat.

Дополнительно,ласту, железные дороги Узбекистана, России, Казахстана, Афганистана и Пакистана ведут работы по строительству железнодорожной линии Mazari-Sharif - Kabul - Peshawar, которая станет транспортным коридором, соединяющим Европу, Россию, Узбекистан, Афганистан, Пакистан, Индию и дальше до стран Юго-Восточной Азии.

По новой железной дороге предполагается построить высоковольтные электрические линии Сурхандарья - Пуль-Хумри - Дашги - Сунбай - Желалабад - Пешавар, которые обеспечат электрифицирование этой новой железнодорожной линии.

Местоположение области в самом юге страны создает удобный доступ к таким странам, как Афганистан, Пакистан и Индия.

К услугам предприятий развитая сеть железнодорожного и автомобильного транспорта.

В области расположен крупнейший в регионе речной порт между Термезом и Ташкентом установлены регулярные железнодорожные, авиационные и автомобильные рейсы.

Дистанции до городов Узбекистана
- Навои - 249,6 км.
- Карши - 273 км.
- Ташкент - 453 км.
- Самарканд - 150 км.
- Бухара - 162,6 км.
- Ургенч - 583,4 км.

Дистанции до городов Афганистана
- Мазар-Шариф - 105 км.
- Кабул - 475 км.
- Херат - 831 км.

Расположение области на самом юге страны предполагает удобный доступ к таким странам как Афганистан, Пакистан и Индия.

На карте отмечена интеграция транспортных узлов области к транспортным коридорам стран ЦАРЭК (Центральноазиатское Региональное Экономическое Сотрудничество), а также расстояния от областного центра (город Карши) до крупнейших городов страны.

В области расположен крупнейший в регионе речной порт.

Между Термезом и Ташкентом установлены регулярные железнодорожные, авиационные и автомобильные рейсы.

К услугам предприятий развитая сеть железнодорожного и автомобильного транспорта.

В области расположен крупнейший в регионе речной порт.
UTILITY LINES

Region automatically provides for connection to electricity, natural gas and water supply lines for investors.

Utility tariffs for enterprises

- Electricity supply* $0.03 for 1 kWh
- Water supply* $0.09 for 1 m³
- Hot water* $0.53 for 1 m³
- Solid waste* $0.48 per 1 person per month
- Natural gas supply* $0.04 for 1 m³
- District heating* $0.18 for 1 m³

All mobile and internet operators are present in the region.

KEY TAX RATES

Corporate income tax

Value Added Tax 20%

An enterprise with an annual turnover in the amount of 1 to 3 billion soms has the right to switch to simplified taxation, according to which the amount of VAT is below 20% and varies by the scope of activity.

- Property tax 2%
- Dividend tax 5%
- Social payment from employees salary 12%
Free economic zone (FEZ) “Termez” is unique and sizable project, aimed at development of trade and transport and logistical links with the neighbors of Uzbekistan, particularly with Afghanistan, as well as for comprehensive utilization of resources of the border region of Surkhandarya region.

FEZ “Termez” located on special dedicated land plot of Termez district, at 25.5 km distance from the border with Afghanistan. Total area of the FEZ territory is 3 000 ha. FEZ has special legal regime with lowered tax and customs rates, as well as minimized administrative procedures.

FEZ “Termez” has authorized representations of the centers for support to entrepreneurs - “Single window” and “Export Support Fund” to ensure simplified registration procedures and financial and banking services.

In accordance with the Resolution of the President of Uzbekistan of 3 May, 2017, FEZ “Boysun-Pharm” was established in the region. Main purpose of creation of this FEZ is:

- to ensure comprehensive and efficient use of production and resource potential of Surkhandarya region with regards to growing medical plants in special natural conditions and for their further processing;
- to attract direct foreign investments and domestic investors for establishment of modern pharma products and medicines production capacity with high added value, predominantly on the base of pharmaceuticals (medical substances) and herb material grown in plantations, established in accordance with the prescribed procedures;
- creation of modern production capacity for processing of medicinal herbs and production of medicines, medical supplies, auxiliary and packaging materials;
- deepening of the processes of localization of production of pharma products on the basis of local herb material based on established close cooperation ties and industrial cooperation between the enterprises of FEZ and across the country;
- establishment of research centers for study of introduction and cultivation of medical herbs with experimental and test laboratories.

FEZ has a term of 30 years with possible extension. FEZ has special tax, customs and FX regimes. Additionally, economic entities and farms planning to develop plantations for growing medical herbs will have access to lending from commercial banks.
FEZ PARTICIPANTS' BENEFITS

During the whole lifespan FEZ will have special tax, customs and FX regimes

Mentioned benefits are provided for a term of from 3 to 10 years depending on the size of investment:

- from $300,000 to $3 mln. up to 3 years
- from $3 mln. to $5 mln. 5 years
- from $5 mln. to $10 mln. 7 years
- from $10 mln. and higher 10 years

With application during subsequent 5 years of income tax and unified tax payment rates at 50% of the current rates.

Additionally, FEZ participants are exempt for the whole duration of FEZ term from customs duties for imported raw materials, materials and components for production aimed at export, and also will have a right to use convenient to them terms and conditions of payments and settlements for imported and exported goods.

Period of functioning of the FEZ

30 years with possible extension

Tax and customs regimes were unified for FEZ participants with exemptions from payment of:

- all types of taxes
- all types of customs duties

Tax and customs regimes were unified for FEZ participants with exemptions from payment of:

- all types of taxes
- all types of customs duties
